Eight Year Sentence For Manslaughter

LINDSAY (ENS) — William John Shelley, 25, of Toronto, was sentenced to eight years in jail last Friday in connection with the May 22 death of a Carnarvon man.

Originally charged with non-capital murder, Shelley pleaded guilty last week to the lesser charge of manslaughter.

Prior to passing sentence, Mr. Justice Donald Morand of the Supreme Court of Ontario heard a summary of the circumstances surrounding the charge, as well as psychiatric evidence indicating the accused was "a fairly severe alcoholic, especially for his age."

Psychiatrist Dr. Basil Orchard said he considered Shelley as potentially dangerous when he is drinking, and said the Toronto man's condition demanded treatment.

Chief Inspector William Armstrong of the Ontario Provincial Police Criminal Investigation Branch told the court how pieces of slab-wood and a piece of white cord helped lead to Shelley's arrest.

He said the body of Bernard Gilligan, 26, of Carnarvon was found on May 22 on a dirt road in Lutterworth Township, south of Minden. Near the body were a piece of white cord and wood slabs.

Mr. Armstrong said there was little blood and no signs of a struggle, indicating that death had not occurred at that location. Gilligan's car was missing.

A post mortem conducted in Peterborough revealed a total of 45 stab wounds to Gilligan's upper torso and head, two of which had penetrated the heart

and another the lungs.

The Carnarvon man had left his home on the evening of May 22 to take some garbage to a dump, and his body was discovered the next day by Wesley Sisson of R.R. 1, Minden, who was taking a Sunday drive.

Gilligan's car was found on May 24 near Markham. There was blood in the trunk and on the rear bumper, wood slabs in the trunk, and a fingerprint on the front window of the vehicle, Mr. Armstrong said.

A few days later information was received that a car similar to Gilligan's had been seen travelling west on the Bob's Lake Road on May 22 with two occupants. Later on the same day the car was seen returning at a high rate of speed, with only one occupant.

Cottages on the road were checked by police, and a pile of slab-wood and a piece of white cord at one cottage led to the arrest on June 3 of Shelley in Toronto.

In a statement to police, the Toronto man said he had been drinking with friends that day, ending up at a Minden hotel. While walking back to his cottage, he said Gilligan picked him up. The two men had a few drinks at the Shelley cottage, the statement said, and then a heated discussion broke into a fight and Gilligan was stabbed to death with a fishing knife.

Shelley said in his statement that he was terrified at what had happened. He said he put the body in the trunk of Gilligan's car, was too frightened to go to the police, and after driving for some time he left the body by the side of a dirt road and later abandoned the car.

"I couldn't believe it had happened," the statement continued.

Snowmobiles Banned From Algonquin Park

In a recent Newsletter, the Minister of Lands & Forests, the Honourable Rene Brunelle, announced that the operation of snowmobiles has been prohibited in a number of Provincial Parks. Algonquin Park, which includes the Townships of Bruton and Clyde in Haliburton County, is one of these.

Snowmobiles, as everyone knows, are great winter fun machines, but their very design means that they can travel over vast areas of countryside as well as along designated trails. When travelling across the country snowmobiles can unwittingly cause damage to young plants and disturb wildlife, even when travelling to the starting points of designated trails.

Thus it has been considered desirable to curtail their operation in areas of the Park where damage can be caused to the natural environment and where less tangible qualities, such as solitude, can easily be disrupted.

Undoubtedly a factor in the decision not to open the lower portion of Algonquin Park to snowmobiles is the considerable

development in recent years of snowmobile trails on Crown and privately owned land adjacent to the Park. On these trails the opportunity is provided for the snowmobile fraternity to enjoy long cross country runs on trails which are regularly checked for hazard and maintained by grooming.

For instance, in the vicinity of the Bruton-Clyde area there are some 105 miles of Department managed trails. Information on these can be obtained from the local Lands and Forests office, or from the District Office in Lindsay. Other additional trails operated by private agencies and other government agencies exist. These are often developed in co-operation with the Department of Lands and Forests, as for instance several of those advertised by the Kawartha Tourist Association in Peterborough.

Thus snowmobilers are able to use a wide variety of trails of considerable length for their enjoyment and other outdoor enthusiasts can rest assured that fragile ecosystems are being preserved.

Snowmobile Association Sends Letter Opposing Trail Closing

Haliburton County
Snowmobile Association
P.O. Box 420,
Haliburton, Ontario.
November 29, 1971.

Hon. Rene Brunelle, Minister,
Ontario Department of
Lands & Forests,
Queen's Park,
Toronto, Ontario:
Honourable Sir:

The Haliburton County Snowmobile Association has directed me to write you expressing its concern and opposition to your Department's Radiogram dated Lindsay, November 12, 1971, announcing the closure of the Townships of Clyde and Bruton to snowmobiling, including the Ontario Hydro's right-of-way through the Township of Clyde.

It is the closure of the Hydro right-of-way that this Association is strongly opposed to. This right-of-way has provided a direct link connecting Haliburton County with the Whitney area lying east of Algonquin Park for many years, and has been used by thousands. It is this Associ-

ation's conviction that the use of this right-of-way for snowmobiling has not in any way adversely affected the animal life or ecology of the area. To the residents of Haliburton County it is appalling that your Department should close an already cleared piece of land where the forestation has already been killed by the Hydro in order to keep it accessible for maintenance purposes.

This Association embraces a membership now in excess of five hundred persons, representing business men, private residents and cottage owners of our County. It is not the intention of this Association to sit idly by and allow an illogical measure of this type to interfere with the freedom of movement and recreation that has been our privilege in the past, earned at a high cost in time, labour and dollars.

We herewith request the immediate withdrawal of this directive.

Respectfully yours,
M. P. Waddell, President.

Copper Found Near Minden

MINDEN (ENS) — Blasting through rock in a road building project north of Minden exposed a copper showing in November and Haliburton now has a potential mine.

Geophysical work is underway on this recent find, which is held jointly by CAM Mines and Imperial Oil Enterprises, with the two companies sharing the exploration cost.

According to the Northern Miner, this is a promising-looking showing with finely disseminated copper mineralization showing over substantial widths. It is expected that diamond drilling will be started early in the new year.

Classic Films To Be Shown At Haliburton

Minden and Haliburton residents can see 10 full-length motion pictures through a 'Classic Film Appreciation', a course proposed by Sir Sandford Fleming College for its winter continuing education session in Haliburton Village.

Scheduled to start January 7, this 10-week general interest series will include such films as Animal Farm, Casablanca, The Great Train Robbery, The Wild Bunch, On The Waterfront, and Paths of Glory.

One film will be shown each Friday evening preceded by a short discussion about the particular motion picture in terms of technical brilliance, great acting, social significance, and even nostalgia.

College instructor Gordon Gray will conduct these discussions via visual electronic remote

blackboard (VERB) from Peterborough. However, films will be shipped to Haliburton for the screenings.

He currently is conducting a similar course in Peterborough, and students there feel it is one of the most pleasant general interest programs ever offered by the College.

Running time of each film will average 90 minutes, and it is expected the discussions will take no longer than 40 minutes.

Mr. Gray majored in cinema to obtain his Master of Fine Arts Degree from the University of California, and has had practical film-making experience.

Fee for the course is \$15.00, and residents may register by telephoning Mrs. Carol Duncan at Haliburton 457-2214, Mrs. Sid Cooper at Eagle Lake 754-2275, or Mrs. Richarda Rogers at Minden 286-1395.

Haliburton Huskies Surprised By Strong Bancroft Club, But Return Home To Defeat Bobcaygeon Ti-Cats By 6-2

The Haliburton Huskies finished out their second successive weekend where they have ended up splitting their two games in the O.H.A. Central Ontario Junior 'D' Hockey League. In Wilberforce the Huskies were stunned by the Bancroft Jets on Friday as the Jets rammed in two goals in the first two minutes and never looked back, defeating the visiting Huskies by a 10-5 count. The Bobcaygeon Ti-Cats, who have not won a game this year, were beaten by the Haliburton club here at home to the tune of 6-2.

The local boys, who have been suffering from injuries to key players during the past two weeks, have not looked their best and coach Scotty LaRue is concerned as some of the players are lacking the necessary hustle needed for the team to become a contender for first place. He hopes that the players will show a little more desire to win in the two upcoming games this weekend as the Huskies travel to Bobcaygeon on Friday night and then the Bancroft Jets return to Haliburton on Saturday night in what could prove to be the best game of the season so far. The Jets are a fast skating team with some good stickhandlers. The Haliburton defence, who were a little loose in their loss to them last Friday night could have trouble covering these speedsters — unless John Parish can slow them down with one or two of his patented thunderbolt checks.

At Wilberforce on Friday night the Huskies never recovered as the Jets came out fast and rammed home two goals before the Huskies knew they were in a game. The first one came at the :53 second mark with the second tally at 1:55. The lead was increased to 3-0 at 6:14, before Jeff Campbell scored the first goal for the Huskies at 16:34 on passes from Ed McCallum and John Parish. It appeared that the Haliburton squad might settle down at this point and make a good effort at a first period comeback, but the Jets notched another goal less than a minute later. By the 12:00 minute mark of the middle period the score read 5-3, with the Huskies playing some improved hockey. The turning point in the game was on a good scoring opportunity that saw Rick Wood miss as he made a beautiful move on a one-on-one situation, only for him to hit the post as he made his fake on the Jets' goaltender. If he had scored on that play the game could have went either way, but the Bancroft team rallied and pounded in three more quick markers to put the contest out of reach. Rick Dunsford and Gerry McElwain scored in the third period but the Huskies couldn't muster a sustained attack, with the final result ending 10-5.

Bob Woodcock who, although playing all of the Haliburton Huskies' games, hasn't had the same conditioning as the rest of the players and as a result hasn't reached his stride, didn't let this stop him as he got the ball rolling on Saturday night — the big defenceman who has been converted to a centre

scored the first two goals of the game against the Ti-Cats. When Bob does get into top shape, he and Gerry McElwain will make two of the top centres in the league. Paul Dawson assisted on the first goal at 8:59, with Rick Dunsford and McElwain assisting the second marker at 19:27. The Huskies were never in danger as John Wilson scored his first goal of the year in the second period to give the locals a commanding three-goal lead. Dennis Good was on his way to his third home game shutout until Austin got the Ti-Cats on the scoresheet at the :42 second mark of the third period, but the Huskies came right back and scored a minute later. Floyd Henry and Ed McCallum then rounded out the Huskies' scoring as the Bobcaygeon team managed only one more goal.

There were 403 fans at the Haliburton Arena on Saturday night, but the up and coming encounter with the Bancroft Laundry Jets should attract the best crowd of the season as the Haliburton Huskies try to avenge their 10-5 loss to the Jets last week. It should be quite a game!

HUSKIES HI-LITES: Cameron Botting, who is playing with the Hamilton Red Wings of the Major Junior 'A' Hockey League, was home for a few days over the weekend and took in both of the Huskies' games. Cam, although not playing regularly, has shown a lot of promise and the Red Wings management are looking for big things from him in the future. Two other local boys, besides Ron Stackhouse, are also doing well in hockey circles around the country.

Wilberforce Loses 6-1 Game To Apsley

Apsley downed the Wilberforce Lumberkings by a 6-1 score in an Intermediate 'D' Hockey League game played last Saturday night in Wilberforce. Scoring for Apsley were Craford with two and Watson, Andrews, Andrew and Reynolds with one goal each. The lone tally for Wilberforce came from Roy Hoare.

The winner of the Lumberkings' draw was Hayden Bowen of Wilberforce. The lucky shot on the net saw no winners, and so the pot will grow by another dollar.

The Wilberforce Lumberkings will play again this coming Friday night, December 17, at the Wilberforce Arena, when the visitors will be Fenelon Falls.

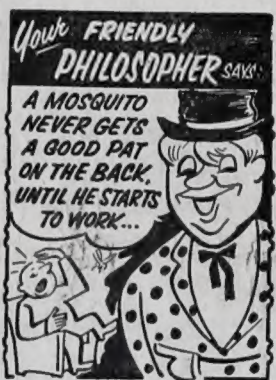

Junior 'D' Hockey League Standings (As of December 13)

	G	A	W	L	T	GF	GA	Pts.
Lakefield	10	9	1	0	67	26	18	
Haliburton	10	7	3	0	51	33	14	
Bancroft	9	5	3	1	52	37	11	
Cannington	10	4	5	1	55	65	9	
Fenelon	10	3	7	0	34	62	6	
Bobcaygeon	9	0	9	0	22	58	0	

as Derrell Stamp is playing with the Brantford Majors in the Tier 2 Junior 'A' Hockey League while his brother, Craig Stamp, has signed with the Greensboro Generals in the Eastern Hockey League. The response to the "Name the Husky" Contest has been good and the Huskies' management wants to remind all the students to get their entries in as soon as possible, as the contest closes on December 22. The winner will be picked by a panel of judges and the result announced at the regular scheduled game on Christmas night.

WHOEVER HEARD OF BUBBLE PIPES

Never fails. Had barely written a column extolling the grand, mild weather we'd been having, when the wind came out of the north with a bone in his teeth, and the snow flew, and the car and I both started coughing.

And almost before I'd begun ruing the writing of such a jinx column, my wife yelped something like, "Holy Old Whackers! It's almost Christmas." And sure enough, it almost is.

Christmas, when we were all young, was something. There was looking forward to school holidays, associated with sleighs and toboggans and skating and coming in soaking wet, rosy as a cherub, hungry as a hyena.

There was the anticipation of decorating, hanging stockings, rustling paper, and a vast, magnificent turkey dinner, a once-a-year treat.

Christmas shopping was no problem. Nobody had any money. Of course, the agonizing decisions were there, even then. For adults: should it be something practical — a new sweater or long underwear; or should it be something magic and enchanting — a game or a book? No question of both.

For kids, with maybe 85 hard-earned pennies to spend, there was no problem. A bubble-pipe for your brother (.10c and supply his own soap); a colouring book for your sister (.15c and find her own crayons); a beautiful cup and saucer for your mother at .35c; and a purple and yellow tie for your dad, at .25c. If the family were bigger, you cut your cloth.

And you did all your shopping on the day before Christmas. There was never a frantic thought that the stores might be sold out of bubble-pipes or long underwear.

Then there was the symbolic significance, though we didn't even know the meaning of either word then. There was the church concert, usually held in the Sunday School hall. There were games and carols and choirs. There were the telegrams from Santa Claus, read aloud periodically, and with mounting excitement, to say that he was getting closer and closer, from the North Pole, though Donner had come up lame. Then the entry of himself, the wild clamour, and the dispensing of those string bags with candy and an apple in each.

And the Christmas pageant in the church, the nativity scene, invariably broken up by a tiny angel piping, "Hi, Mommy. Looka me. I'm an angel," while Mommy

blushed deeply between embarrassment and pride.

I still look forward to Christmas, but there's a difference. It's about the difference with which a prisoner would look forward to (a) getting out of jail, or (b) going to the electric chair.

Nowadays we anticipate Christmas, all right. But what we look forward to is a hectic, expensive scramble, with precious little of the mystery and delight remaining.

The Christmas turkey is now just a dirty great bird that has to be stuffed and then stuffed into us, and then cleared up after. A turkey today is not a gruesome, fascinating thing hanging head down in the woodshed, by its claw-like feet. It's just something you buy and stick in the freezer, anytime during the year, in case you have unexpected weekend guests.

Shopping has changed immeasurably. The panic button is pushed about the end of October and we are warned, shouted at, and scorned by the various media until we have a tremendous guilt feeling if we're not Christmas shopping by mid-November.

The agonizing decisions are still there, but most people have some money now, which quadruples the decisions. Every year, at our house, we firmly decide, about Dec. 1st, that there will be no gifts or cards this year. And every year, at the last minute, we plunge into an orgy of both and wind up Christmas day feeling that we were right in the first place.

Every year, the big problem is What To Buy Granddad. It's not that he is The Man Who Has Everything. The trouble is that he's The Man Who Doesn't Need Anything. He doesn't smoke or drink. His slippers are good as new. And he has at least six shirts in his bottom drawer, not even unwrapped, bought on previous desperate birthdays and Christmases.

The symbolic significance is still there, of course. And the Christmas concerts and pageants. But what's a bag of candy to a kid today? He probably collected eight times that amount on Halloween, and also has an allowance, so that he can buy his own, not that cheap stuff in the Christmas bag.

And the pageants, more's the pity, tend to become second cousins to lashings of liquor, phoney TV Christmas programs, and sheer greed: "I wanna snowmobile!"

JEHOVAH'S WITNESSES CONVENTION SLATED FOR SUTTON THIS WEEKEND

This weekend, December 17-19, Jehovah's Witnesses from 21 cities and towns of Central Ontario will funnel into the Sutton District High School for their Semi-Annual Convention. Over 1,400 will attend, with about 65 expected to arrive from Haliburton.

All sessions are open to the public but will be designed to stress the importance of the ministry for Witnesses.

Highlighting the seminar will be William Veenstra's public address on Sunday at 2:00 p.m. probing the age-old dream of men, namely Everlasting Life. The public lecture by the District Supervisor of the Witnesses is entitled "Can You Live Forever - Will You?". As usual, the Bible will be consulted for authority.

Most Jehovah's Witnesses hope to live forever on earth. They expect this planet to be remodelled into a vast park.

Mr. Veenstra's discourse is expected to substantiate these ideas.

IS GOD

THE AUTHOR OF THEM ALL?

Let us suppose that an evangelist comes to our community to conduct a religious meeting and proceeds as follows: at the first service he preaches that salvation is by faith only, but at the next one he contends that it is by faith exercised in obedience to the gospel rather than by faith alone. At the third service he declares that either sprinkling, pouring, or immersion is baptism, but at the fourth service he plainly shows that immersion is baptism. At the fifth service he tells the people that they ought to baptize their babies, but at the sixth service he says that penitent believers are the only spiritual subjects of baptism. At the seventh service he preaches once in grace, always in grace; but at the eighth he tells the people that it is possible for them to fall from grace, that some have fallen, and that the Bible tells how to keep from falling. At the ninth service he teaches that it is all right to have human creeds, but at the tenth he declares that we should take the Bible as our only guide in religion.

No thoughtful person would continue to listen to ONE preacher preach like that, but the majority of people are perfectly willing for TEN preachers to preach these conflicting ideas. They say that if one man should preach that way he would contradict himself and be inconsistent, but what kind of a God do they suppose we have if He endorses all these conflicting doctrines and has sent out these preachers to present them?

The Nation's Business

By WILLIAM C. SCOTT, M.P.

It will be a source of great satisfaction to many people in the Lindsay area to learn that the Unemployment Insurance Commission has, to some extent, modified its recent centralization policy. Commencing this week, there will be a U.I.C. claims office in Lindsay. The office will be open only on Tuesdays initially, but the Commission has given assurances that it will operate more frequently should the need arise. Office hours are from 8:30 a.m. to 4:30 p.m.

Under the present government's policy of centralization, thousands of offices in small towns throughout the country were combined into central offices in the larger cities, resulting in dehumanization of U.I.C. services. A large percentage of applicants for unemployment insurance benefits require assistance in completing application forms, and, under the present system, this assistance was denied those who needed it most. Besides incurring unnecessary delays in processing of claims, many people are required to travel considerable distances at their own expense to resolve problems resulting from incorrectly completed forms.

No one can quarrel with centralization when it results in better service to the public and especially when it can provide better service at a saving in cost. But, the U.I.C. centralization policy has resulted neither in efficiency nor in savings. In fact, the exact opposite is true, and it is all the more disturbing to me because U.I.C. payments are not a gift, or a grant, but rather a return of premiums that are paid by the eventual recipient. It follows that an applicant for unemployment benefits is entitled to assistance in processing his or her claim.

Establishment of the new service in Lindsay culminates a long and vigorous campaign that I have waged against the centralization since it was first announced in the House of Commons.

Needless to say, I was very pleased when the Labour Minister wrote me last week and told me about the opening of the Lindsay Office. However, I look on this as only the first step in the process of broadening and improving the claims service of the U.I.C. Now that the door has been opened, I propose to follow up and appeal for even greater improvements in the service for Victoria-Haliburton.

**Uncle Dudley's
Column**

Wednesday, November 24, was quite a red letter day for me — the date of my father's birth in the year 1860.

Then, on invitation from Mr. Wood, delivered by our neighbour Lynn Barnhart, I was privileged to speak on Haliburton County pioneer days. The group consisted of some 30, give or take a few, of Grade Seven, and a bright lively group they were, at the Archie Stouffer Elementary School in Minden. I am always happy to be able to do anything within my physical powers for the benefit of the community in which we live.

One of the activities in our community is a showing of slides featuring educational subjects, put on by the Browns Camp folk. This appears to me to be a very fine project. The programmes on television leave much to be desired.

Our community appears to have more than the usual share of sickness at the moment — Mrs. Packard is recuperating at home from hospital experience, Mrs. Wallace is in the Peterborough Civic Hospital, and Mrs. Dianne Thomas has been sent to Toronto. We wish them all a speedy recovery and a safe return.

I would like to say a word of commendation for the fine job done by the Bot Construction Company on Highway 35 from Buttermilk Falls to the Highland Motel, a mile below Carnarvon. The job at the village is particularly well done and we appreciate it.

As we will be in December when this column appears, I must get in the Christmas mood.

I very much enjoyed Mrs. Fairfield's article and also that of Mr. Schofield.

We shortly will be in the Municipal Election period, so select your men with great care. Haliburton County, with other areas, has a rough road ahead owing to the drive for greater area set-up, all to bring the governing power farther away from the local people. If we wish to appeal assessment now a trip to Peterborough, please! This is just the beginning, with Belleville, or Kingston the likely centre.

See you next week. Peace be with you!

Canada Manpower Centre News

In his monthly report on Canada Manpower Centre activities, Dick Kenzie, the Manager of the Peterborough office, stated that with the onset of winter the employment situation in Peterborough brightened somewhat as the Canada Manpower Centre placed 233 persons in employment during November, compared to 222 during October 1971 and 183 in November of 1970. In addition, 160 man days of casual employment were arranged.

As projects under the Federal Local Initiatives Program and the Canada Manpower Training on the Job Program come into being it is hoped that more jobs will become available in December. In addition, your Canada Manpower Centre is assisting various area municipalities in recruiting workers for the Provincial Government's Ontario Seasonal Employment Programs which includes the felling of diseased elm trees, he continued.

Additional training places have also been provided for the Special 1971-72 program of re-inforcing the Canada Manpower Training Program and 90 students commenced training at Sir Sandford Fleming College during November under that program. An additional class of 18 was added to the scheduled class of 14 in the Finish Carpentry and Cabinet Making course which should help to relieve a developing shortage throughout the area. Courses scheduled for December in addition to Basic Upgrading included Commercial Accountancy, Finance Clerk, Commercial Steno and Commercial Refresher. In addition, a special course in basic upgrading is scheduled to commence at Curve Lake before Christmas, he said.

At month's end there were 4,087 persons registered at the Peterborough C.M.C. office as being unemployed and seeking full time or part time work. This included 402 students looking for Christmas or weekend jobs. This compares with 3,867 at the end of October. Mr. Kenzie pointed out that this was an operating figure only and cannot be construed as a measure of unemployment in the Canada Manpower area which consists of Peterborough and Haliburton Counties plus portions of Victoria, Durham and Northumberland Counties including the Town of Campbellford.

The Creative Job Search Techniques Program continues to operate every Wednesday night with the total participation now reaching more than 250 people. Three counsellors gave this training to 14 inmates of the Ontario Correctional Institute at Millbrook, Ontario and again have reported that they were well received. The Institute has requested that the course be given again in the spring. Two new instructors are being trained to replace and relieve the present instructors and should be fully operational in three weeks, concluded Mr. Kenzie.

THE HOOT OWL
AND THE BUNNY

On the crags and among the second growth pine and hemlock covering the hill south of Little Boskung Lake there congregates quite a colony of grey owl. These birds are rather strange specimens, operating nearly always by night, owing to the fact they are nearly blind by day. They have almost a noiseless flight — this in fact is due to their feather covering, long and quite fine, and the wing spread is quite large. This very fact makes it easier to hunt their meals as they can pounce on the unsuspecting victim with little commotion.

In the small area on the north-west shore of this lake there is a low-lying area, which some sixty years ago was a clear field; it is now grown up with alder brush, ash, elm and white birch trees and forms a good covering for the few snowshoe rabbits or varying hares (which I believe is their proper name). There are very few of these about — in fact, all wild life appears to be dwindling with the exception of the raccoon.

Now, on the winter nights after the lakes were frozen and the snow piled up, the rabbit families had a great time scudding about, and particularly on the moonlight nights. The old saying "as mad as a March hare" fills the bill quite well.

Now, the owl families must be fed, and the rabbit running about was one of their favourite foods. All the young rabbits were warned not to stray across the lake on the ice to the home of the owl. However, "Stumpy" a wilful fellow, could not see why his mother was so strict in this matter, and it cramped his style to be confined to this little swamp when the large sheet of ice on the lake was at hand.

So one lovely night he set out down the travelled road to the point of land across from the rocky bluffs, and took off over the ice. Such wonderful fun — he could see his shadow hopping along beside him as he ran — and presently he entered the thick bush on the farther shore.

"To 'Who, Who, Who' — the call of the owl in the tree tops above, as much as to say what are you doing there? My, am I glad to see you! Why did you not bring your friends?"

The little rabbit felt a bit uneasy and thought he had better go home. Out on the lake in the moonlight he was a fine target for the owl, and with a long swooping motion she sailed out and quickly and quietly down, and soon finished off the wee bunny and went back to her tree to sleep off his fine meal. Poor foolish bunny!

Moral: Our elders from their experience in life have gathered much wisdom, and we would do well to profit by their advice and guidance.
